NAVIGATING THE COMPLEXITIES OF GLOBAL MARKET OPERATIONS: A STRATEGIC ANALYSIS OF THE INTERNATIONAL BUSINESS OPERATIONS AND RISK MANAGEMENT PRACTICES OF GSK (GLAXOSMITHKLINE)

Student Name: Vishwa Murugesan
Student ID: 229058491
Course: Advanced Electrical and Electronic Engineering with Management MSc
Tutor/Project Supervisor: Zeynel Abidin A. Cil

Main aim and research question(s)

Main aim

- The aim of this study is to conduct a strategic analysis of GSK's (GlaxoSmithKline) international business operations which critically focuses on the market expansion strategies, risk management practices as well as regulatory compliance measures of the company.

Research questions

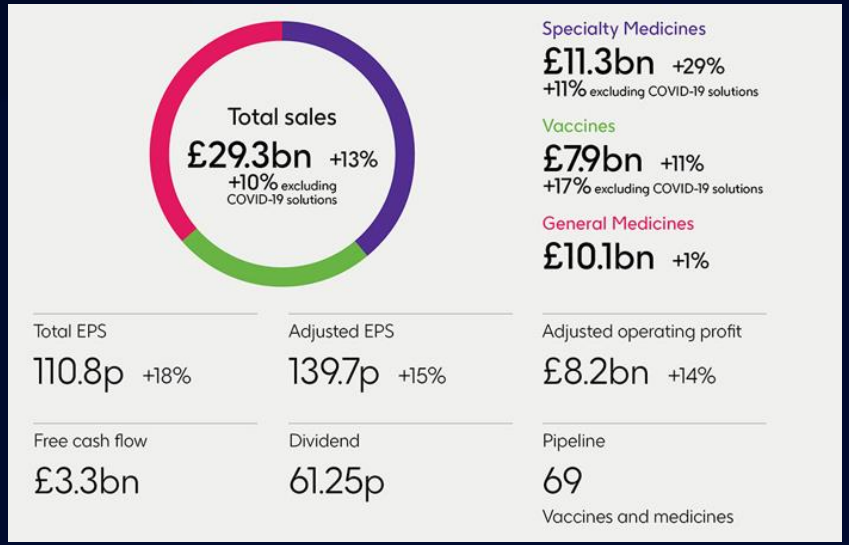

- *RQ1: What are the regulatory compliance measures that are adopted by GSK in different nations?*
- *RQ2: What are the market expansion strategies of GSK along with their effectiveness in diverse global markets?*
- *RQ3: What are the impacts of global market dynamics on the competitive positioning and operational efficiency of GSK?*
- *RQ4: What are the risks that are associated with international operations of GSK and their mitigation strategies?*

UNIVERSITY OF LEICESTER

Originality / value / adds to the existing literature

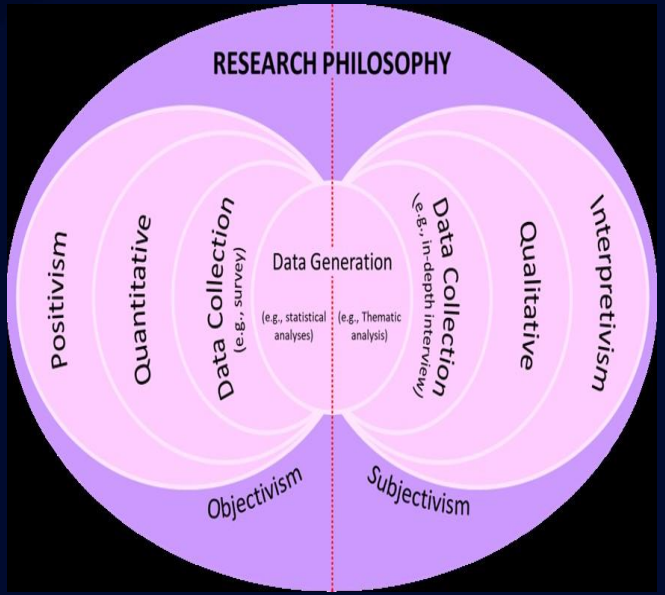

- By offering an in-depth analysis of the global strategies and right management practices of the GSK, the study contributes significantly to the existing literature.
- There, the subject critically examines the challenges and opportunities the organisation faces in a rapid and dynamic global environment, which provides valuable insights into the way the company navigates its regulatory, economic and competitive pressures (Jackson *et al.* 2020).

UNIVERSITY OF LEICESTER

Methodology /Approach

- An interpretivist research philosophy was adopted for exploring the nuanced and complex nature of the international business operations and risk management practices on GSK in this study (Al-Ababneh, 2020).
- Furthermore, for allowing the generations of insights directly from the information without preconceived hypotheses an inductive approach was also employed in this study as well.
- Regarding data collection, it was conducted through a secondary qualitative approach, specifically through the utilisation of online libraries such as Google Scholar, ProQuest etc.

UNIVERSITY OF LEICESTER

Summary of results / findings

- The study focused on strategic responses of GSK to the challenges of operating in the global pharmaceutical market which essentially revealed several key findings briefed here.
- First and foremost, the company has implemented robust strategies for navigating the complex global regulatory environments.
- Moreover, it was also found that the company has strategically expanded its presence in the emerging markets through effectively leveraging local partnerships as well as tailored marketing strategies (Jackson *et al.* 2020).

UNIVERSITY OF LEICESTER

Contd…
